

VINCENTIAN

FOREWORD

“Loveliest of lovely things are they on earth that soonest pass away. The rose that lives its little hour is prized beyond the sculptured flower.”

The Vincentian staff has chosen the rose as its theme to illustrate how each student, like the rose, lives her little hour at Saint Vincent's Academy. When she enters St. Vincent's, she is but a mere bud. But within the few short years she develops in grace, culture, and knowledge, as the rose does in color.

Finally, like the rose, she is prized beyond the sculptured flower, a beautiful flush rose, colored like the dawn.

Co-editors, Barbara DeFatta and Debra Horn are confident that enthusiasm over-shadowed the work that went into this yearbook.

"Friendship is the breathing rose, with sweets in every fold."

Of all the many friends we have at St. Vincent's, one of the warmest and most wonderful is Sister Cabrini. Whether we're with her doing experiments in the chemistry lab, pondering over economic problems in sociology, or just waiting to get out of the senior jail at campus capers; one of her humorous remarks or radiant smiles tell us all "Here's a real friend!"

The official tasks she does everyday are acting as sociology, freshman religion, physical science, and chemistry sponsor, not to mention her roll as chief projector runner and fixer.

For all these reasons, we, the staff of the 1964 Vincentian dedicate our yearbook to Sister Cabrini with deepest gratitude and respect.

*"When we desire to confide
our words, we commonly say
they are spoken under the rose."*

ENCOURAGES COLLEGE EDUCATION

OFFERS HIGHER EDUCATION LOANS
to qualified members

EDUCATION PAYS

Non-college bound young men and women
face three problems:

1. Will there be sufficient jobs?
2. Will your training and high school education be adequate for increasingly complex and high level jobs offered by our economy?
3. Will you be able to overcome your disadvantages and handicaps?

Students who have not been thinking about college at all may find their solution in one-two-three year programs of technical training. At least three trained technicians will be needed for every scientist and engineer required.

Our officers and directors will gladly help you and your parents plan a better future.

Standing in front of the Slattery Building are Kathy Sebastian, Nell Carmichael, Camille Johnson, Frances Walker and Irene Sebastian who are all members of the Slattery family.

"Do ALL of you want a pink slip?"

Determined to make a clean get-away, the freshmen cautiously proceed down the senior steps.
